Customized furniture

Personalized grossing workstations

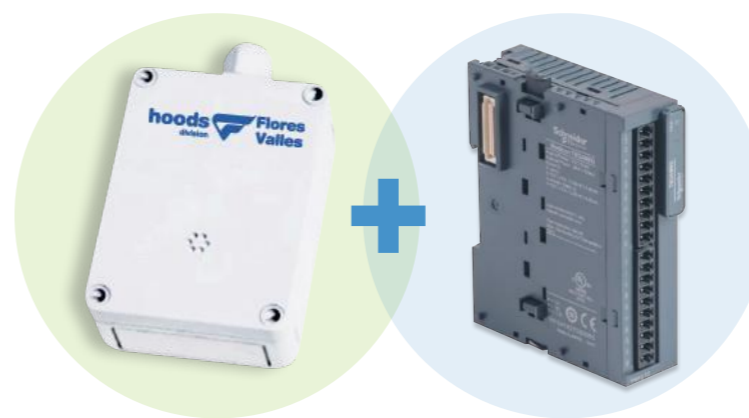

Formalin module dispenser-collector

## Formalin detectors

Formaldehyde detector integrated in grossing workstation  
FET-120/170/200

Continuous reading of formaldehyde in room (ppm).

It indicates through an acoustic and visual alarm in the touch screen of the Grossing Workstation when the ppm level is over the one previously set by the user in the screen.

Formaldehyde room sensor-controller

Formaldehyde room sensor-controller with acoustic and visual indicators

Formaldehyde room detector-recorder
